

APPAREL SIZING

Frogg toggs® RAINSUITS

Frogg toggs® classic garments are designed and constructed to be worn over clothing. Our sizing reflects extra allowance for layering. If you typically wear a size Large shirt, then a Large in frogg toggs® rainwear should fit loosely over a shirt and lightweight jacket. Toadz garments are designed and constructed for a more athletic fit. The jackets have a more tapered fit towards the bottom. If you typically wear a size Large shirt, then a Large in the Toadz line will have a close fit but allow ease of movement. The dimensions listed on our size chart should be applied based on your layering preferences.

UNISEX	Chest	Sleeve	Waist	Inseam	Height	Weight

Frogg toggs® WADEWEAR

Sizes are for general reference only. Waders should always be fitted for individual comfort. To allow for movement in Breathable Waders, consumer should allow approximately 5 inches in the wader inseam, measured from crotch to floor without shoes/boots.

*Measure crotch to floor, allow 3" to 4" to flex the knee.
